Procedure

In all situations, customers should be treated with respect in a firm, but fair manner. Staff will assume good faith in all customer interactions and be consistent in fairly administering Tampa-Hillsborough County Public Library policies.

Safety of the public and library staff is our priority. For any potentially dangerous or life-threatening situation, 911 should immediately be called and customers and staff moved to a safe area. Staff should be alert to their surroundings at all times and know who is in the building, where they are, and what they are doing.

Staff is authorized to take action when dealing with violations of this policy. Such action may include, but may not be limited to, warning the customer to stop the behavior, ordering the customer to leave the premises, or calling law enforcement to request a trespass warning. In determining which action is appropriate, staff should consider the nature of the violation, the customer's response to the warning, a pattern of violations or the seriousness of the violation. Staff should immediately go to help a co-worker if they perceive a potentially difficult situation. Violations of Code of Conduct need to be documented using the incident reporting software. See Attachment A for Staff Enforcement of Code of Conduct.

Law enforcement will be called to trespass when customers repeatedly fail to respond to a warning, become belligerent or violent or commit an illegal act. Branches within the City of Tampa should call Tampa Police Department; branches in the unincorporated County should call the Sheriff's Office. Generally, but not in all cases, the in-charge person authorizes the call. Staff should make note of the violator's appearance and write down a

description with as much detail as possible. Staff must not approach or attempt to detain the violator but should keep track of his or her location. With the officer present, staff will verbally explain to the customer that they are being trespassed from the property and cannot return for one year. If a customer informs staff that their personal property or vehicle has been stolen or damaged, staff will offer to assist in contacting law enforcement for the customer to file a report.
